Notes to the Condensed Interim Financial Statements For the Nine Months Ended September 30, 2017 (Expressed in Canadian Dollars) (Unaudited – Prepared by Management)

1. NATURE OF OPERATIONS AND GOING CONCERN

Maritime Resources Corp. (the "Company" or "Maritime") was incorporated under the *Business Corporations Act* (British Columbia) on May 14, 2007. The principal activities of the Company are the exploration of resource properties in Green Bay, Newfoundland and Labrador, Canada. The Company is considered to be in the exploration stage.

The address of the Company's corporate office and principal place of business is Suite 615 – 800 West Pender Street, Vancouver, British Columbia, Canada, V6C 2V6.

These condensed interim financial statements of the Company have been prepared in accordance with International Financial Reporting Standards ("IFRS") on a going concern basis, which contemplates that the Company will be able to realize its assets and discharge its liabilities in the normal course of business. Accordingly, these condensed interim financial statements do not include any adjustments to the amounts and classification of assets and liabilities that might be necessary should the Company be unable to continue as a going concern.

The Company's continuing operations as intended are dependent upon its ability to identify, evaluate and negotiate the acquisition of, participation in or interest in new properties, assets or business opportunities, and raise additional funds by way of equity financings. Any acquisition may be subject to shareholder and regulatory approval and obtaining the necessary financing. Should the Company be unable to complete such a transaction, its ability to raise sufficient financing to maintain operations may be impaired. The available funds are insufficient to continue operations for the ensuing year. Although the Company has been successful at raising funds in the past through the issuance of share capital, it is uncertain whether it will be successful in doing so in the future. These material uncertainties may cast significant doubt on the Company's ability to continue as a going concern.

2. STATEMENT OF COMPLIANCE AND BASIS OF PRESENTATION

These condensed interim financial statements have been prepared in accordance with IAS 34, *Interim Financial Reporting,* as issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretations Committee ("IFRIC"). These condensed interim financial statements have been prepared on a historical basis, using the accrual basis of accounting except for cash flow information. They do not include all of the information required for full annual financial statements, and should be read in conjunction with the Company's audited financial statements as at and for the year ended December 31, 2016. Accordingly accounting policies applied are the same as those applied in the Company's annual audited financial statements which are filed on SEDAR at www.sedar.com.

These condensed interim financial statements were authorized for issue by the Board of Directors on November 22, 2017.

3. SIGNIFICANT ACCOUNTING POLICIES

The condensed interim financial statements have been prepared using the historical cost basis, except for financial instruments which are stated at fair value. Accounting policies applied are the same as those applied in the Company's annual audited financial statements.

Notes to the Condensed Interim Financial Statements For the Nine Months Ended September 30, 2017 (Expressed in Canadian Dollars) (Unaudited – Prepared by Management)

(a) Use of estimates and judgment

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, and revenue and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and further periods if the review affects both current and future periods.

Critical judgments exercised in the application of accounting policies and estimates having the most significant effects on the amounts recognized in these condensed interim financial statements include:

Judgement:

Economic recoverability and profitability of future economic benefits of exploration and evaluation assets – Management has determined that exploration, evaluation and related costs incurred which were capitalized may have future economic benefits and may be economically recoverable. Management uses several criteria in its assessments of economic recoverability and probability of future economic benefits, including geological and other technical information, a history of conversion of mineral deposits with similar characteristics to its properties, evaluation of permitting and environmental issues and other such factors.

Royalty reserve - Royalty reserve includes proceeds received from royalty units, repayable from future production. As future production is not determinable, the royalty units have been classified as capital in nature.

Estimates:

Valuation of share-based payments, agent compensation and finders' warrants – The Company uses the Black-Scholes Pricing Model for valuation of share-based payments, agent compensation and finders' warrants, which requires the input of subjective assumptions including expected price volatility, interest rate, and forfeiture rate. Changes in the input assumptions can materially affect the fair value estimate and the Company's results and equity reserves.

Income taxes – In assessing the probability of realizing deferred tax assets, management makes estimates related to expectation of future taxable income, applicable tax opportunities, expected timing of reversals of existing temporary differences and the likelihood that tax position taken will be sustained upon examination by applicable tax authorities. In making its assessments, management gives additional weight to positive and negative evidence that can be objectively verified.

Notes to the Condensed Interim Financial Statements For the Nine Months Ended September 30, 2017 (Expressed in Canadian Dollars) (Unaudited – Prepared by Management)

While management believes that these estimates are reasonable, actual results could differ from those estimates and could impact future results of operation and cash flows.

(b) Functional and presentation currency

The Company's functional and presentation currency is the Canadian dollar.

(c) Segmented information

The Company has one operating segment, mineral exploration and development, and operates in one geographical segment, being Canada.

(d) Exploration and evaluation assets ("E&E")

Once the legal right to explore a property has been obtained, costs directly related to E&E expenditures are recognized and capitalized, in addition to the acquisition costs, net of recoveries, on a property-by-property basis. These direct expenditures include such costs as materials used, surveying costs, drilling costs and payments made to contractors during the exploration phase. Costs not directly attributable to E&E activities, including general administrative overhead costs, are expensed in the period in which they occur.

From time to time the Company may acquire or dispose of a mineral property pursuant to the terms of an option agreement. As the options are exercisable entirely at the discretion of the optionee, the amounts payable or receivable are not recorded. Option payments and government assistance are recorded as property costs or recoveries when the payments are made or received.

If economically recoverable ore reserves are developed, capitalized costs of the related property will be reclassified as mining assets and will be amortized using the unit-of-production method. When a property is deemed to no longer have commercially viable prospects to the Company, E&E expenditures in respect of the project are deemed to be impaired. As a result those E&E costs, in excess of estimated recoveries, are written off to profit or loss.

The Company assesses E&E assets for impairment at each statement of financial position date or whenever facts and circumstances suggest that the carrying amount of an asset may exceed its recoverable amount. The recoverable amount is the higher of the asset's fair value less costs to sell and value in use. A cash-generating unit is the smallest identifiable group of E&E assets that generates cash inflows that are largely independent of the cash inflows from other assets or groups of assets.

Although the Company has taken steps to verify title to the properties in which it has an interest in accordance with industry standards for properties in the exploration stage, these procedures do not guarantee that title to the properties will not be challenged or impugned. Property title may be affected by undetected defects, be subject to unregistered prior agreements, transfers or land claims, or be non-compliant with regulatory requirements.

Notes to the Condensed Interim Financial Statements For the Nine Months Ended September 30, 2017 (Expressed in Canadian Dollars) (Unaudited – Prepared by Management)

(e) New accounting standards

The Company has adopted the following new standard, along with any consequential amendments, prior to or effective January 1, 2017. These changes were made in accordance with the applicable transitional provisions, and did not impact the Company's condensed interim financial statements.

- IAS 7, "Statement of Cash Flows": is effective for annual periods beginning on or after January 1, 2017,
- IAS 12, "Income Taxes" (amended standard): is effective for annual periods beginning on or after January 1, 2017.

Accounting Standards Issued but not yet in effect

- IFRS 2, "Share-based payment" (amended standard) is effective for annual periods beginning on or after January 1, 2018.
- IFRS 9, "Financial Instruments: Classification and Measurement": is effective for annual periods beginning on or after January 1, 2018.
- IFRS 15, "Revenue from Contracts and Customers": the effective date of adoption has been deferred to January 1, 2018 (with earlier application permitted).
- IFRS 16, "Leases": is effective for annual periods beginning on or after January 1, 2019.

The Company is currently evaluating the impact of these new and amended standards on its financial statements. The impact is not expected to have a material impact on the statements of financial position or results of operations of the Company.

4. FINANCIAL INSTRUMENTS

The Company has classified its cash as FVTPL (using level 1 of the fair value hierarchy); receivables (excluding tax arrangements) as loans and receivables; and accounts payable and accrued liabilities and loans as other financial liabilities.

The carrying values of cash, receivables, accounts payable and loans approximate their fair values due to the short-term maturity of these financial instruments.

5. FINANCIAL RISK MANAGEMENT

(a) Credit risk

Credit risk is the risk that a counter party to a financial instrument will fail to discharge its contractual obligations. The Company is exposed to credit risk with respect to its cash and receivables. The maximum exposure to loss arising from accounts receivable is equal to their carrying amounts.

The Company manages credit risk with respect to its cash by maintaining demand deposits with a major Canadian financial institution; however, this exposes the Company's cash to concentration of credit risk as all amounts are held at a single institution.

Notes to the Condensed Interim Financial Statements For the Nine Months Ended September 30, 2017 (Expressed in Canadian Dollars) (Unaudited – Prepared by Management)

(b) Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in satisfying financial obligations as they become due. The Company manages its liquidity risk by forecasting cash flows from operations and anticipated investing and financing activities. The Company is exposed to liquidity risk.

(c) Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices. Market risk comprises three types of risk: interest rate risk, foreign currency risk and other price risk.

(i) Interest rate risk

Interest rate risk consists of two components:

- (a) To the extent that payments made or received on the Company's monetary assets and liabilities are affected by changes in the prevailing market interest rates, the Company is exposed to interest rate cash flow risk; and
- (b) To the extent that changes in prevailing market rates differ from the interest rate in the Company's monetary assets and liabilities, the Company is exposed to interest rate price risk.

The Company is not exposed to significant interest rate risk due to the short-term maturity of its monetary assets and liabilities.

(ii) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in foreign exchange rates. The Company is not exposed to foreign currency risk as its monetary assets and liabilities are denominated in Canadian dollars.

(iii) Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices, other than those arising from interest rate risk or foreign currency risk. The Company is not exposed to other price risk.

There were no changes in the Company's approach to managing the above risks.

Notes to the Condensed Interim Financial Statements For the Nine Months Ended September 30, 2017 (Expressed in Canadian Dollars) (Unaudited – Prepared by Management)

6. CASH

	September 30, 2017	December 31, 2016
	(\$)	(\$)
Cash	631,751	580,510

7. EXPLORATION AND EVALUATION ASSETS

During 2010, the Company acquired a 50% interest in the Green Bay mineral property located in central Newfoundland, and in 2011 acquired the remaining 50% interest, such that the Company has a 100% interest in the property, subject to a 2% net smelter return royalty on future production from the property with the exception of production from the Orion deposit.

On February 27, 2017, the Company entered into an agreement to acquire a 100% interest in the Whisker Valley ("Whisker") property in Newfoundland, Canada, under the following terms:

		Shares in the capital of the	Minimum exploration
	Cash payments	Company	expenditures on the
_	(\$)	(#)	(\$)
22-Mar-17 Upon approval (received)	25,000 (paid)	100,000 (issued March 23,2017)	Nil
22-Mar-18 Year 1 anniversary	20,000	150,000	100,000
22-Mar-19 Year 2 anniversary	30,000	200,000	250,000
22-Mar-20 Year 3 anniversary	50,000	250,000	300,000
22-Mar-21 Year 4 anniversary	75,000	300,000	500,000
22-Mar-22 Year 5 anniversary	100,000	500,000	500,000
<u>-</u>	300,000	1,500,000	1,650,000

The property is subject to a 2.5 % NSR, of which 1% can be purchased for \$1,000,000 on or before the end of the second anniversary of commercial production.

Expenditures incurred on the Company's 100% owned Green Bay Property and the Whisker Valley Property, during the nine months ended September 30, 2017, follow:

Notes to the Condensed Interim Financial Statements For the Nine Months Ended September 30, 2017 (Expressed in Canadian Dollars) (Unaudited – Prepared by Management)

9. LOANS

2014 Notes: At September 30, 2017, in respect of a loan (principal of \$100,000 bearing interest of 8% per annum), the Company had accrued interest of \$27,917 (December 31, 2016: \$20,438) owing to the lender (Note 13).

2017 Loan: On April 25, 2017, the Company entered into a loan arrangement ("Bridge Financing Agreement") pursuant to which it received \$500,000. The Bridge Financing Agreement, which was approved by the TSX-V on April 26, 2017, provides for a maturity date of one year (the "Maturity Date"), bears interest of 8% per annum and is repayable upon earliest of: the maturity date, raising \$2,000,000 or more in equity or debt financing, or committing an event of default (including, but not limited to, the Company ceasing to have its shares listed on the TSX-V, the Company failing to maintain its status as reporting issuer in good standing in BC, the Company ceasing to keep the agreement in good standing, and the Company becoming insolvent). In connection with the Bridge Financing Agreement, the lender received a bonus of 333,333 shares in the capital of the Company and non-transferable warrants allowing for the purchase of up to, in the aggregate, 1,666,666 additional common shares in the capital of the Company at \$0.15 per share until April 26, 2018. At September 30, 2017, the Company has accrued interest of \$17,315. The effective interest rate, including bonus shares and warrants is 38%.

10. CAPITAL MANAGEMENT

The Company defines capital as all components of shareholders' equity and debt obligations. The Board of Directors does not establish quantitative return on capital criteria for management due to the nature of the Company's business. The Company does not pay dividends and is not subject to any externally imposed capital requirements.

The Company raises capital through the issuance of its share capital and promissory notes to fund operations, and the identification and evaluation of exploration assets. Although the Company has been successful at raising funds in the past through issuance of common shares, there can be no assurance that it will continue to be able to do so in the future.

There were no changes to the Company's approach to capital management during the period ended September 30, 2017. The Company is not subject to any externally imposed capital restrictions.

Notes to the Condensed Interim Financial Statements For the Nine Months Ended September 30, 2017 (Expressed in Canadian Dollars) (Unaudited – Prepared by Management)

11. SHARE CAPITAL

(a) Authorized

Unlimited number of common shares without par value

(b) Issued

Offerings

During the nine months ended September 30, 2017:

 Closed the Private Placement on September 25, 2017, announced on August 25, 2017, and issued 8,034,167 non-flow-through units ("NFT Units") at \$0.10 per unit, 1,483,334 flow-through units ("FT Units") at \$0.15 per unit, for total proceeds of \$1,025,917. In connection with the

Each FT Unit consists of one flow-through common share of the Company and one-half of one common share purchase warrant (the "FT Warrant"). Each whole FT Warrant will entitle the holder thereof to purchase one common share of the Company (the "FT Warrant Share") at a price of \$0.20 per FT Warrant Share expiring March 22, 2019.

Each NFT Unit consists of one non flow-through common share of the Company and one-half of one common share purchase warrant (the "NFT Warrant"). Each whole NFT Warrant will entitle the holder thereof to purchase one common share of the Company (the "NFT Warrant Share") at a price of \$0.20 per NFT Warrant Share for expiring March 22, 2019.

In connection with this private placement, finders' fees of \$66,713 were paid and 500,333 Finder/Broker Warrants were issued. The warrant entitles the holder thereof to purchase one common share of the Company at a price of \$0.20 per Warrant Share expiring March 22, 2019.

1,000,000 NFT units have been allotted but not issued.

- The Company issued 100,000 shares in connection with the Whisker property. The shares were valued at \$14,000.
- The Company issued 333,333 shares in connection with the Bridge Financing Agreement. The shares were valued at \$46,667.

During fiscal 2016:

The Company completed three private placements for a total of 23,070,000 units (collectively, the "Offerings"), all with the same terms, by way of non-brokered private placements of units ("Equity Units") As a condition of the Offerings, all participants acquiring Equity Units were provided the option to purchase a streaming royalty ("Royalty Unit") as described below.

Notes to the Condensed Interim Financial Statements For the Nine Months Ended September 30, 2017 (Expressed in Canadian Dollars) (Unaudited – Prepared by Management)

The Offerings were comprised of Equity Units at \$0.14 per Equity Unit, with each Equity Unit consisting of one common share and one half of one non-transferable share purchase warrant ("Warrant"). Each whole Warrant attached to the Equity Units will entitle the holder to purchase one additional common share at a price of \$0.20 per common share for 36 months following closing.

Finders' fees in cash together with Finder/Broker Warrants ("Finders' Warrants"), which have the same terms as the Warrants attached to the Equity Units, were paid on portions of the placements (note 11(c)).

Royalty units

The purchaser of the Offerings were provided the option to purchase Royalty Units that will return 100% of the original investment made by the purchasers, and is to be paid out of production from the Company's Green Bay project ("Project").

Total royalties payable from the Royalty Units ("Royalty Payment") are capped at an amount equal to the total Equity Units and Royalty Units purchased. Royalty Payments will be made annually beginning on the first anniversary of the date of commencement of commercial production for the Project. Royalty Payments will be funded solely from 10% of annual net cash flow from the Project, with net cash flow representing net production revenues realized from the Project after deduction of all Project operating and debt servicing costs. At the option of the Company, Royalty Payments will be paid either in cash or in gold.

During fiscal 2016 the Company issued Royalty Units in conjunction with the Offerings. The Royalty Units had a price of \$0.01 per Royalty Unit, and, subject to written consent of the Company, may be assigned or transferred in their entirety only. The proceeds received in relation to the Royalty Unit has been recorded as a Royalty Reserve within Equity. The likelihood of the Project going into production cannot be determined at this time.

Closings of the Offerings, including Royalty Units, occurred as follows:

Option and Share Purchase Agreement with Commander

- On February 12, 2015 as amended April 6, 2016, Commander Resources Ltd. ("Commander") and Maritime entered into an option and shares purchase agreement (the "Option and Share Purchase Agreement") pursuant to which Maritime, or its nominees (the "Maritime Group"), has the option to purchase, in stages, a total of 10,000,000 of the 11,440,000 common shares of Maritime owned by Commander; should Maritime elect to acquire any of the shares, that acquisition will be subject to regulatory approval. Maritime and Commander also entered into a voting trust agreement (the "Voting Trust Agreement"), whereby Commander will vote its remaining shares with management of the Company for the duration of the Option and Share Purchase Agreement. Any shares not purchased pursuant to the terms of the Option and Share Purchase Agreement, as amended, will automatically be released from the provisions of the Voting Trust Agreement.
- Pursuant to the amended Option and Share Purchase Agreement, Maritime will identify third parties to purchase shares as follows:

Notes to the Condensed Interim Financial Statements For the Nine Months Ended September 30, 2017 (Expressed in Canadian Dollars) (Unaudited – Prepared by Management)

- Tranche 1: 2,000,000 shares at a price of \$0.18 per share on or before February 28, 2015 (completed).
- Tranche 2: 2,000,000 shares at a price of \$0.14 per share; 1,000,000 on or before April 30, 2016 (completed) and 1,000,000 on or before August 31, 2016 (completed by the Company included in treasury shares).
- **Tranche 3**: Up to 2,000,000 shares @ \$0.21 per share on or before August 31, 2016 (500,000 purchased by the Company included in treasury shares (2)).
- **Tranche 4**:Up to 2,000,000 shares, plus any carry forward shares⁽²⁾, at a price of \$0.25 per share ⁽¹⁾ between August 31, 2016 and February 28, 2017. Tranche has not yet been completed and therefore 3,500,000 shares (2,000,000 Tranche 4 shares and 1,500,000 Tranche 3 carry forward shares) are no longer subject to the Option and Share Purchase Agreement.⁽³⁾
- Tranche 5: Up to 2,000,000 at a price of \$0.30 (1) between February 28, 2017 and August 31, 2017(3). Tranche has not yet been completed and therefore 5,500,000 shares (2,000,000 Tranche 5 shares, 2,000,000 Tranche 4 shares and 1,500,000 Tranche 3 carry forward shares) are no longer subject to the Option and Share Purchase Agreement. (3)
- (1) Prices are subject to price fluctuation, being the greater of the option price and 85% of the volume weighted average price of the common shares for the 10 trading days prior to the applicable option exercise date.
- (2) Any shares not purchased in a particular tranche are carried forward to the next tranche, under the terms of the new tranche, subject to a minimum of 500,000 shares were repurchased in original tranche. Carry forward can only occur once per option.
- (3) The Company is not negotiating with Commander to extend the terms of the Option and Share Purchase Agreement

On August 31, 2016, the Company completed the purchase of a total of 1,500,000 shares at a total cost of \$245,000 (1,000,000 shares at \$0.14 per share; 500,000 shares at \$0.21per share).

(c) Stock options

The Company has a "rolling" stock option plan for its directors, officers, employees and consultants. The terms of the plan provide for options to be granted to a maximum of 10% of the issued and outstanding common shares of the Company at the time of grant of the stock options. The exercise price of each option shall not be less than the minimum price permitted by the policies of the TSX Venture Exchange, and the options may be granted for a maximum term of ten years from the date of grant. The Company records the fair value of all options granted using the Black-Scholes model as share-based payment expense over the vesting period of the options. Vesting terms are determined by the Board of Directors.

Notes to the Condensed Interim Financial Statements For the Nine Months Ended September 30, 2017 (Expressed in Canadian Dollars) (Unaudited – Prepared by Management)

A summary of the Company's stock options as at September 30, 2017 and December 31, 2016 and changes during the periods then ended follows:

	Number of	Weighted
	Options	Average
	(#)	(\$)
Outstanding, December 31, 2015	3,505,000	0.178
Granted	2,400,000	0.250
Expired	(400,000)	0.160
Outstanding, September 30, 2016	5,505,000	0.209
Outstanding, December 31, 2016	5,505,000	0.209
Expired	(200,000)	0.175
Expired	(75,000)	0.200
Expired	(25,000)	0.280
Expired	(100,000)	0.150
Expired	(100,000)	0.250
Granted	200,000	0.150
Outstanding and exercisable, September 30, 2017	5,205,000	0.208

The Company has estimated the forfeiture rate to be 0.00%. Expected volatility was determined based on the historical movements in the closing price of the Company's, or comparable companies', stocks for a length of time to the expected life of each option.

The following weighted average assumptions were used for the Black-Scholes option pricing model for options granted as follows:

	2017	2016
Risk-free interest rate	0.74%	0.59%
Expected dividend yield	Nil	Nil
Expected stock price volatility	125%	120%
Expected option life in years	5	5

Notes to the Condensed Interim Financial Statements For the Nine Months Ended September 30, 2017 (Expressed in Canadian Dollars) (Unaudited – Prepared by Management)

As at September 30, 2017, stock options outstanding with a weighted average remaining contractual life of 3.11 years were as follows:

Number	Number		
of Options Outstanding	of Options Exercisable	Exercise Price	Expiry Date
(#)	(#)	(\$)	
			_
425,000	425,000	0.200	21-Jan-18
